

BOTANIC GARDEN, CAMBRIDGE, MASS.

Dec^r 13th 1874

My dear Sir,

I have a College meeting on Monday (tonight) on Tuesday, & on Wednesday evening; and I do not think it likely that I can be at Col. Lyman's on Thursday. I write to say what I wished to tell you in person; if you and Dr. Warren, the Secretary, think best, I will read a paper at your house ~~at~~ the 8th prop., on recent

investigations respecting
protoplasm. I think the
subject will prove of some
interest to ~~some~~^{several} members
of the club, and it will
admit of microscopic
demonstration.

May I trouble you
to let me know after
Thursday, what you
have decided in regard
to the proposed topic.

I am, dear Sir,
Yours obt servant
G. L. Goodale
